## SUMMARY

---

BS Software Engineering student at FAST NUCES (Class of 2027) with strong foundations in computer science core fundamentals along with full-stack development experience using React.js, Node.js, Express.js, and MongoDB. Experienced in building scalable web applications, real-time systems, and machine learning projects with exposure to QA practices including manual testing and test case design. Seeking opportunities in Software Development and QA roles.

## TECHNICAL SKILLS

---

**Languages:** C++, JavaScript, Python, SQL

**Frameworks:** React.js, Node.js, Express.js

**Tools:** Git, Linux, Jira, Bugzilla, Figma

## EDUCATION

---

**National University of Computer and Emerging Sciences (FAST-NUCES)** Lahore, Pakistan  
*BS Software Engineering* 2023 – 2027

- **Relevant Coursework:** Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, Software Design & Architecture, Software Quality Engineering, Software Construction & Development

## PROJECTS

---

**SyncPad** | *React.js, Node.js, Express.js, Socket.io, MongoDB* Feb 2026 – April 2026

- Developed a real-time collaborative editor enabling multiple users to edit documents simultaneously with instant synchronization.
- Implemented Socket.io for live updates, cursors, and conflict handling in concurrent editing.
- Built session-based collaboration features with MongoDB for persistent document storage.

**NeuroPredict** | *Python, Scikit-learn, Pandas, NumPy* Feb 2026 – March 2026

- Built a machine learning model for early Alzheimer's disease prediction using clinical data.
- Applied preprocessing techniques, classification algorithms, and clustering for analysis and prediction.
- Performed exploratory data analysis and visualization to identify key patterns in medical datasets.

**QuickShow** | *React.js, Node.js, Express.js, MongoDB, Vercel* June 2025 – July 2025

- Built a full-stack movie ticket booking platform with admin panel for managing movies, shows, and seat availability.
- Implemented REST APIs and secure Google OAuth authentication for user sign-in and session management.
- Deployed on Vercel and performed end-to-end testing of booking workflows.

## ORGANIZATIONS

---

**ACM NUCES** — Assistant Vice President

Led and coordinated technical and organizational activities within the society.

Assisted in planning and executing events, workshops, and competitions.

Collaborated with team members to manage operations and ensure smooth event execution.

## CERTIFICATIONS

---

**Mastering HTML5: From Beginner to Advanced** – Udemy (June 2025 – August 2025)

**Foundations of Web Development: CSS, Bootstrap, JS, React** – Udemy (June 2025 – August 2025)

**Node.js: All You Need To Know With Practical Project** – Udemy (June 2025 – August 2025)
